

Ku-ring-gai Community Workshop “The Shed”

Member Accreditation

Table Saws

Accreditation
Code

W1

This Document applies to the ‘Major’ Table Saw x 2

The key features of the Table Saw must be understood and be capably demonstrated during competency assessment.

Competency will be assessed on both knowledge of key features and demonstrated safe operation of the Table Saw.

This procedure must be read in conjunction with the Shed’s Safety Induction Package.

Assessment Reference: W1 Table Saw V003

Assessment checklist

Item	Assessor Initial
Explain the main hazards associated with the Table Saw (kickback, blade contact)	
Understand and explain why the rip fence and mitre fence are not used simultaneously	
Conduct pre-operation safety checks – damage, blade alignment, blade height, safety devices, loose items or other hazards	
Set up fence and demonstrate ripping timber to a predetermined width	
Set up straight cuts for pieces of timber (mitre fence) and demonstrate action of sawing off a small piece from the end of timber and a piece of sheet material	
Rotate blade to 30 degrees from vertical and demonstrate angled rip cut. (However, describe risk if blade is tilted towards fence)	
Discuss and/or demonstrate use of jigs and sleds
