

Ku-ring-gai Community Workshop “The Shed”

Member Accreditation

Sanding Machines	Accreditation Code	W8
-------------------------	---------------------------	-----------

This document applies to the following Sanding Machines:

Major 26” Dual Drum Sander (Drum Sander), Major 26” Oscillating Belt Edge Sander (Edge Sander), Major Oscillating Vertical Spindle Sander (Bobbin Sander), Woodfast 305mm Disc Sander & SandFlee SF-1800,

This procedure must be read in conjunction with the Shed’s Safety Induction Package.

Assessment Reference: W8 Sanders V003

Assessment checklist

Check machine abrasive grade and condition, table settings and select and use PPE for sanders	Assessor Initial
Check that dust extraction activates automatically	
Choose appropriate machine to sand end grain, edge grain, surfaces, chamfers, hollows, and rounded corners	
Describe suitability of material for the dual drum sander (avoid softwoods such as pine and ensure no contaminants such as paint or glue on timber). Explain the importance of using this machine for its purpose as a fine sander and NOT as a thicknesser)	
Adjust Disc, Bobbin and Edge Sander table angles, and Bobbin drum sizes with matching table inserts	
Demonstrate operations listed in line 5	
Demonstrate cleaning abrasive surfaces on the various sanding machines (except dual drum sander)	
Clean dust from machine and surrounds
